PROFESSIONAL SUMMARY

Driven **Computer & Intelligent Systems Engineering Student** with a strong academic record (**3.41 Cumulative GPA**) and hands-on experience across embedded systems, software testing, and web development. Demonstrates practical skills in microcontroller prototyping (Arduino, ESP32), network fundamentals, and quality assurance methodologies. Proactive learner currently advancing expertise in software test execution and automated testing workflows.

EDUCATION

Bachelor of Science in Computer and Intelligent Systems Engineering

Future University in Egypt (FUE) | 2nd Year Student | Expected Graduation: 2029

- **Academic Standing:** Cumulative GPA 3.41 / 4.0
- **Relevant Coursework:** Structured Programming (C++), Digital Logic Design, Circuit Analysis, Engineering Mathematics

TECHNICAL SKILLS

- **Programming Languages:** C++, Python, JavaScript, HTML, CSS
- **Embedded Systems & IoT:** Arduino IDE, ESP32 Microcontrollers, Hardware Diagnostics & Prototyping
- **Software Testing & QA:** Manual Testing, Test Case Execution, Test Case Writing, Automation Fundamentals
- **Networking & Tools:** Cisco Network Fundamentals, Routing & Switching Essentials, Packet Tracer, Git/GitHub
- **Languages:** Arabic (Native), English (B2 - Upper Intermediate), German (A1 - Elementary)

EXPERIENCE & INDUSTRIAL TRAINING

Software Testing Trainee

Digital Egypt Pioneers Initiative (DEPI) | July 2026 – December 2026

- Participating in an intensive 6-month qualification track focused on software quality assurance and testing methodologies.
- Executing manual test cases, identifying software defects, and documenting test scenarios.
- Gaining hands-on experience with automated testing tools, test planning, and defect lifecycle management.

Engineering Intern

Egyptian Petrochemicals Holding Company (ECHM) | July 2026 (2 Weeks)

- Completed corporate technical training focused on industrial engineering processes, technology integration, and operational workflows.
- Engaged with engineering teams to observe systems infrastructure, data flow, and industrial IT applications.

CERTIFICATIONS & SPECIALIZED TRAINING

Network Technician Certification Prep

Cisco Networking Academy | Completed

- Covered OSI model layers, TCP/IP protocol suite, IP addressing, subnetting, routing/switching basics, and network troubleshooting.

Embedded Systems & Microcontrollers (Arduino & ESP32)

Applied Practical Training | Completed

- Gained hands-on experience in microcontroller architecture, sensor/actuator integration, and C/C++ hardware logic.

KEY PROJECTS

Personal Developer Portfolio Website

Technologies: HTML, CSS, JavaScript

- Designed and deployed a responsive personal portfolio website to showcase technical projects, engineering skills, and background.
- Structured clean front-end UI components and optimized navigation for cross-device compatibility.

Embedded Systems & IoT Prototypes

Technologies: C++, Arduino, ESP32

- Developed interactive hardware projects utilizing sensors, actuators, and wireless connectivity modules.
- Wrote modular C++ code to process real-time input data and control physical outputs.
